

HAMMAD GUL

FULL STACK DEVELOPER

ABOUT ME

Hi, I'm Hammad Gul - a Full Stack Developer with 3+ years of experience building real, functional web applications. I work with MongoDB, PostgreSQL, Express.js, React.js, Node.js, Next.js, and TypeScript, along with Docker, CI/CD, Redis, and AWS. I'm comfortable on both frontend and backend - REST APIs, JWT auth, database design, deployment, and responsive UI. I focus on writing clean code and delivering things that actually work.

EDUCATION

B.Sc. Computer Engineering

University of Engineering & Technology (UET), Peshawar
2024 - 2028

CERTIFICATIONS

Introduction to Frontend Development

Simplilearn · ID: 10038288
